Analyst

Date	7/11/21	Role	Developer	Name	Guy Shabtay
Email	Guy11@gmail.com	Phone number	052-8811-249	Organizational affiliation	Development team

Application analysis

Description	The manager will select the option to search a product by name. Then the manager will choose a product from all the products in the store. Whether the product is in stock or not, the manager will be able to search for that product by typing the full name of the product. After this action, the manager will be able to see all the details of the requested product. If the typed name is not the name of a product in the store's system, then an appropriate error message will be printed.
-------------	--

Name of requirement	Product price change	Unit		Identification number	5
System name	scExpress			Date of application	
Name that requires	Beni	End date required		Phone number	
Urgency of execution	Medium priority			Reference	

Analyst

Date	7/11/21	Role	Developer	Name	Guy Shabtay
Email	Guy11@gmail.com	Phone number	052-8811-249	Organizational affiliation	Development team

Application analysis

Description	<p>The manager will select the option to change the price of a product. Then the manager will choose a product from all the products in the store. Whether the product is in stock or not, the manager will be able to find that product by typing the full name of the product. After this action, the manager will be able to increase or decrease the price of the product. The lowest price he can type is 0. If the typed name is not the name of a product in the store's system or the new price typed is a negative number, then an appropriate error message will be printed.</p>
-------------	--

Name of requirement	View all orders	Unit		Identification number	6
System name	scExpress			Date of application	
Name that requires	Beni	End date required		Phone number	
Urgency of execution	Low priority			Reference	

Analyst

Date	7/11/21	Role	Developer	Name	Guy Shabtay
Email	Guy11@gmail.com	Phone number	052-8811-249	Organizational affiliation	Development team

Application analysis

Description	The manager will select the option to view all the orders. Then the manager will be able to see all the orders placed on the site. After this action, all the shopping carts purchased from the store will be printed in a chronological order: the first order ever placed will be the first to be printed, and the last placed up to this moment will be the last. If no orders have been placed on the site yet, a message will be printed indicating that no orders have yet been placed on the site.
-------------	---

Name of requirement	Change order status	Unit		Identification number	7
System name	scExpress			Date of application	
Name that requires	Beni	End date required		Phone number	
Urgency of execution	Top priority			Reference	

Analyst

Date	7/11/21	Role	Developer	Name	Guy Shabtay
Email	Guy11@gmail.com	Phone number	052-8811-249	Organizational affiliation	Development team

Application analysis

Description	The manager will select the option to confirm / cancel an order. The manager will be presented with a line asking him to enter the serial number of the order. After this action he will be presented with 2 options: the first option is to confirm the order and the second option is to cancel the order. If the serial number does not exist in the system, an appropriate error message will be printed.
-------------	---

Name of requirement	Confirm order	Unit		Identification number	7.1
System name	scExpress			Date of application
